

Award-Winning Professionals in Irrigation Design, Consulting & Water Management

Design & Applied Technology Divisions

Timothy Malooly, CID, CIC, CLIA, PLT, EPA WaterSense Partner of the Year 2008
President

Timothy Malooly, is president of Water in Motion, inc. Tim builds business based upon a philosophy of client service, professionalism, education, commitment and follow-through. An active member in the irrigation industry, Tim participates in the Irrigation Association (IA) serving on its Board of Directors and as Chair of the National IA Ambassador Program. At the state level, Tim serves on the Board of Directors of the Minnesota Nursery & Landscape Association (MNLA) and is Chair of its Government Affairs Committee. In 2003, Tim was recognized by his peers for devotion to his industry and awarded the prestigious MNLA Committee Member of the Year. Tim also serves on the Board of Directors of the Gopher State OneCall system and in 2007 was appointed by Governor Tim Pawlenty to the Minnesota State Board of Electricity. In 2008, Tim received the EPA's first WaterSense Partner of the Year award for Irrigation.

Craig Otto, CIC, CID, CLIA, CWCM, EPA WaterSense Partner
Water Resource Consultant,

Craig Otto has developed deep and diverse expertise over his nearly 20-year career in the irrigation industry. After serving as a golf course superintendent, he moved into residential/commercial irrigation as a lead service technician, ultimately owning and operating a service-oriented irrigation company. Craig is focused on promoting high-efficiency irrigation at WIM and as a national and international instructor and curriculum advisor for irrigation equipment manufacturer Rain Bird Services. At WIM, Craig also specializes in designing and auditing irrigation systems as well as helping clients maximize the value and efficiency of their investments in irrigation.

Caty Kakos Johnson, CLIA, EPA WaterSense Partner
Design Manager

Caty is the lead Irrigation Designer at Water in Motion, inc. Caty achieved a Bachelors of Science Degree in Interior Design through the Art Institutes International Minnesota utilizing computer programs such as AutoCAD, ArchiCAD and the Adobe Creative Suite. A strong background in Interior Design has aided Caty in her irrigation design skills with a high level of accuracy and attention to detail. She is especially trained in high efficiency irrigation design including low volume irrigation, green roof, and rainwater collection systems. She has designed numerous landscape irrigation systems in the United States and Canada.

Al Bevier
Technologies Systems Manager

Al graduated from the University of Maryland with a BS in Information Systems Management. Al has over 20 years of experience in computer systems management and operations. Focused on business processes and how they interface with computer systems, Al manages all central control systems for WIM as the manager of the Applied Technologies Division. Al works with clients to develop highly efficient irrigation systems that meet the needs of individual sites.

Jerry Anfang, ASET, CWM, PLT
Applied Technologies Water Manager

Jerry brings 6 years of experience in Irrigation Central Control to Water in Motion, inc. Jerry's expertise lies in the installation and troubleshooting of electric components for central control systems. Jerry has developed rainwater harvesting controls to facilitate LEED based irrigation projects. Jerry understanding how environmental factors impact the landscape enables him to create irrigation systems that operate at peak efficiency.
