

*Award-Winning Professionals in Irrigation Design, Consulting & Water Management*

### **Applied Technologies Division**

Founded in 1995, Water in Motion, Inc. is an award-winning team of professionals who are dedicated to excellence in all aspects of high-efficiency irrigation design, consulting, and applied technologies for any size project. WIM's Applied Technologies Division specializes in computer central control of irrigation both as specifiers and consultants. The Water Management Services at WIM enhance the appearance of the landscape and save water on behalf of our clients. Effective irrigation water management is critical to creating and maintaining a beautiful landscape.

Al Bevier  
*Technologies Systems Manager*

#### **Al Bevier**

*Technologies Systems Manager*

Al Bevier graduated from the University of Maryland with a BS in Information Systems Management. Al has over 20 years of experience in computer systems management and operations. Focused on business processes and how they interface with computer systems, Al manages all central control systems for WIM as the manager of the Applied Technologies Division. Al works with clients to develop highly efficient irrigation systems that meet the needs of individual sites.

Jerry Anfang  
*Applied Technologies, Water Manager*

#### **Jerry Anfang, ASET, CWM, PLT**

*Applied Technologies, Water Manager*

Jerry Anfang brings 6 years of experience in Irrigation Central Control to Water in Motion. Jerry's expertise lies in the installation and troubleshooting of electric components for central control systems. Jerry has developed rainwater harvesting controls to facilitate LEED based irrigation projects. Jerry's understanding of how environmental factors impact the landscape enables him to create irrigation systems that operate at peak efficiency.
